LinkedIn: linkedin.com/in/sample-student | GitHub: github.com/sample-student

Professional Summary

Entry-level software and data professional with hands-on experience in Python programming, data analysis, machine learning, and application development. Interested in building practical AI and data-driven solutions.

Technical Skills

Programming: Python, SQL

Data & ML: Pandas, NumPy, Scikit-learn, Machine Learning, Data Analysis

Development: REST API, Streamlit, Git, GitHub

Tools: Jupyter Notebook, VS Code

Education

Bachelor's Degree in Computer Science

Sample University | 2023–2027

Projects

Customer Churn Prediction

Built a machine learning model using Python, Pandas, and Scikit-learn to analyze customer data and predict churn.

Data Analysis Dashboard

Developed a Streamlit dashboard to explore structured datasets and present analytical insights.

Experience

Student Developer — Academic Projects

Worked on Python-based data analysis and machine learning projects, including data preprocessing, model development, testing, and documentation.

Certifications

Python Programming | Machine Learning Fundamentals | SQL Basics
